

FarmaTalks® Swine Conference

FarmaTalks® has began in April as a tool to deliver quality information for those who participate of the swine and poultry production chain during this period of isolation due to the covid-19 pandemic. Until the end of June **FarmaTalks®** will bring 10 international speakers to present and debate relevant themes over the animal protein production.

The **FarmaTalks®Swine Conference** has as its main goal turn accessible the best technical information trough a 100% online platform.

- **Target:** veterinaries and professionals involved in swine production chain from all over the world.
- **Subjects:** the **FarmaTalks®Swine Conference** will be composed by 3 different panels: animal protein market, respiratory health and enteric health.
- **Date:** October 05th to 08th – 100% online (farma-talks.com).

Program

October 05th (Monday) – Philippines time

06:00pm: Opening ceremony.

06:15pm: The animal protein market: an overview of the present and a prediction of the future.
Nan-Dirk Mulder (Rabobank).

07:15pm: *Mycoplasma hyopneumoniae*: control or eradication?
Dominiek Maes - Ghent University – Belgium.

08:00pm: PCV-2/PCV-3: what should we know about this in 2020?
Joaquim Segales - Universitat Autònoma de Barcelona – Spain.

08:45pm: Round table discussion.

Program

06:00pm: *Glaesserella australis*: another pathogen that I should be concerned about?
Conny Turni – University of Queensland – Australia.

06:30pm: Swine *Influenza*: How to minimize the impact of this pathogen?
Montserrat Torremorell - University of Minnesota – USA.

07:15pm: Glasser Disease: How to keep this pathogen under control on the farm?
Rafael Frandoso - Universidade de Passo Fundo – RS - Brazil.

08:00pm: PRRS: measures to minimize the risk of introducing this disease into the herd.
Daniel Linhares - Iowa State University – USA.

08:45pm: Round table discussion.

Program

October 07th (Wednesday) – Philippines time

06:00pm: Rotavirus: How to control the different serotypes - North American experience.

Jeremy Pittman - Smithfield Hog Production.

06:45pm : Strategies to control swine proliferative enteropathy (ileitis).

Nathan Winkelman - President and co-owner of Swine Services Unlimited Inc. Minnesota – USA.

07:30pm: Round table discussion.

Program

● **06:00pm:** African Swine Fever: The impact and how to prevent the introduction of the disease in the herd?
Alex Peralta - Scuderia Marketing and Distribution Corporation.

● **06:30pm:** Difference between colostrum and lactogenic immunity: practical enteric immunology.
Alejandro Ramirez - Iowa State University – USA.

● **07:15pm:** Post-weaning diarrhea and the relationship with the piglet's intestinal health.
Luiz Felipe Caron – Universidade Federal do Paraná - UFPR – Brazil.

● **08:00pm:** Economic impact of the enteric diseases.
Derald Holtkamp - Iowa State University – USA.

● **08:45pm:** Round table discussion.

Participants

Nan-Dirk Mulder

Nan-Dirk Mulder is a senior analyst in animal protein, and covers the industry from an international perspective. He has advised and participated in projects on all continents of the world. He is a regular speaker at conferences and seminars all over the world. Nan-Dirk graduated in agricultural economics, marketing and market research from the Netherlands' Wageningen Agricultural University in 1996.

Dominiek Maes

Professor of Swine Health Management, College of Veterinary Medicine - Ghent University - Belgium. Graduated from the European College of Veterinary Public Health (ECVPH). Graduated from the European College of Swine Health Management (ECPHM). Co-author of the book Diseases of Swine.

Joaquim Segales (Quim)

He is a professor of Pathological Anatomy and Swine Clinic at the Autonomous University of Barcelona (UAB). He is also currently director of the Animal Health Research Center (CRESA), located at the UAB itself. Member of the working group that discusses animal experimentation models for COVID-19. Co-author of the book Diseases of Swine.

Conny Turni

Turni leads a national and international reference laboratory for respiratory bacterial pathogens where identification, serotyping, genotyping, sequencing and antimicrobial sensitivity testing is performed. Dr. Conny recently isolated a new species of bacteria from pig lungs described as *Glaesserella australis* sp. nov.

Participants

Montserrat Torremorell

Professor of Diagnosis, Prevention and Therapy of Swine Diseases at the University of Minnesota. Award winner: Businesswomen and Professionals from Kentucky (2002). Co-author of the book Diseases of Swine.

Daniel Linhares

Daniel Linhares is currently an Associate Professor and Director of Graduate Studies at Iowa State University. PhD in Veterinary Medicine of Populations by the University of Minnesota.

Rafael Frandoloso

Professor of Microbiology, Immunology, and Infectious Diseases at the University of Passo Fundo (UPF). He received the Extraordinary Doctorate Award from the University of León in Spain (awarded to the institution's best doctoral thesis).

Jeremy Pittman

Sanitary Veterinarian at Smithfield Hog Production (USA), responsible for 130,000 swine breeders, master in Preventive Veterinary Medicine. He received the Allen D. Leman Award for Science in Practice in 2015 and the Science with Practice Award from Iowa State University in 2016.

Participants

Nathan Winkelman

President and co-owner of Swine Services Unlimited, Inc. (SSUI) - Minnesota – USA. Winner of the Allen D. Leman Prize for Science in Practice 2019, which is presented at the Allen D. Leman Swine annual conference in Saint Paul, MN. Co-Author of the book Diseases of Swine. Current president of AASV (American Association of Swine Veterinarians).

Alex Peralta

Alex Peralta is SMARTSS (Sales, Marketing, and Technical Support Services Head) Head at Scuderia Marketing. Swine farm consultant, Associate Member of the Philippine College of Swine Practitioners, Advocate of antimicrobial dosology and crusader against African Swine Fever.

Derald Holtkamp

Professor of Herd Disease Prevention and Advanced Computing in Pig Production at Iowa State University.

Alejandro Ramirez

Former President of AASV (American Association of Swine Veterinarians). Professor of Veterinary Diagnosis and Medicine of Production Animals at Iowa State University. Roy A. Schultz Award Winner as Professor of Swine Medicine (2017). Editor and Co-author of the book Diseases of Swine.

Luiz Felipe Caron

Professor of Veterinary Microbiology and Veterinary Vaccinology at the Federal University of Paraná (UFPR). Researcher at Imunova, a company specialized in monitoring the immune response and developing products and processes related to animal production and health. Member of the advisory committee for Salmonella, Influenza and Newcastle of the Ministry of Agriculture (MAPA) in Brazil.

FarmaTalks® Swine Conference
